All rates are anticipated and variable, unless otherwise stated, and may be adjusted without prior notice. Certificate accounts with a specific term earn the opening APY* until the end of the term, unless otherwise specified. All certificate APYs* stated assume the dividends earned on the certificate balance remain in the account until maturity. If the dividends are withdrawn prior to maturity, the APY* will be lower. Early withdrawal fees applicable on early certificate termination. For additional information on all share accounts or updated rate information, please contact us.
